

REMARKS

In response to the "Notice of Drawing Inconsistency" dated October 1, 2004, Applicant amends the specification to include the description of the figures 21-23 and to delete a duplication of description of two figures.

Applicant also submits copies of Figures 27, 28 and 29 that were submitted on July 19, 2000 with the filing of the application. A postcard receipt showing evidence the figures were submitted with the application is attached. Further evidence that figures 27-29 are not new matter is that they are seen in serial number 08/789,734 for which this application is a divisional of.

Reconsideration is requested.

Date: October 7, 2004

Respectfully submitted,

By
